

SCENTED SACHET PRODUCT KIT

Introduction

These instructions will walk you through how to assemble scented sachets. You can take what you learn here to create new products, like drawer fragrance inserts, shower infusers, or room fresheners! We hope that you enjoy this project. Make sure that you have received all of the materials necessary to create your product. Especially your survey sheet, which you should have already completed.

Now ready your workspace to ensure an enjoyable and efficient production. Is your space large enough? Has it been wiped clean?

Materials

- Rice
- Essential Oils
- Floral Add-ins
- Hair Net
- Markers
- Product Container
- Product Label
- Sponge
- Whisk
- Mixing Container

Completion

This kit will make 25 products. You can then sell these items independently, at your agency or at a SSV Work & Learn Marketplace Event..

Steps

 Prepare your work station by wiping it clean and covering your work area. Pull out and check your materials against the list on this front page.

 Fully mix the rice again until all elements are combined completely.

 Pour one bag of rice into your mixing container and add the entire contents of one essential oil onto the rice pile.

 Gently spoon the contents from your mixing bowl into the cloth sachets and pull the strings tightly.

 Using the whisk provided, stir the rice for 60 seconds until the rice has a nice sheen and appears fully coated.

 Complete all of the previous steps until you have run out of materials. Package all of your products and prepare for sale.

 Choose a matching floral add in to add to your rice.

 Create a custom label with your business name to distinguish your products.

 Pour the contents of one of your floral pieces.

 Complete your post test survey and follow the completion instructions on the front of this sheet.
